

Testimonials

"Barbara has spend hundreds of volunteer hours working with the rescue cats and dogs from Footfalls Animal Rescue. Her healing touch works wonders with the traumatized animals that have been abandoned or abused. She calms them and reassures them that they are now safe and loved. I've seen Barbara work patiently for weeks to ensure that an animal feels secure." *Becky Didier, Director, F.A.R., Cave Creek, AZ*

"I have a new cat! I have a cat that is 17 years old, but she acts, and I am sure she feels, like a new cat. Before Barbara visited Fathers, she slept a lot, did not come to sleep in our bed any longer, and when she did move it looked painful. Since Barbara has been visiting our baby she is a new cat!! Fathers talks all the time like she used to. She is up at least 3 times as much as she used to be. She also comes to bed to sleep with us again just like old times!! We could not be happier with Barbara and her wonderful loving care with our baby." *Jacque, Cave Creek AZ*

"Dear Barbara, I want to thank you for working with Prince (timid kitty). I have to let you know that there has been a big change in his personality for the good. We had six people over... and he first went in our bedroom to hide, then within ten minutes he was out being friendly with everyone. We both want to thank you very much." *Kay & David, Scottsdale, AZ*

"My three dogs, Bear, Moose and Sheba, are grateful to Barbara for the help she has given them through her TTouch skills. Because of a bad fight between Bear and Moose (needing veterinary care), probably caused by a new foster dog upsetting our household, we decided to take it to a new foster home.

However, the "spats" continued, so we made an appointment with Barbara to see if she could lend a hand. After she worked with the dogs, they became calmer and more confident of their places in the household. They are living together in harmony once again. During this time, our Sheba, being rather timid of strangers, touched Barb's heart and she did some TTouch work on her, too, and Sheba turned out to be more outgoing and relaxed. Our family is very pleased with Barbara and TTouch." *Chris Quinn-Warner, Cave Creek, AZ*

PRIVATE TELLINGTON TTOUCH® SESSIONS

PRICING

First visit (including initial consultation)	\$75
Each subsequent visit involving same pet, same issue	\$50

Economical packages for multiple sessions available!

Note: An average of three visits is usually necessary in order for TTouch to be successful.

Introducing Tellington TTouch®. . .

WHAT IS TTOUCH?

Tellington TTouch is a unique approach developed in 1976 by internationally-known animal expert, Linda Tellington-Jones. Based on compassion and respect for our animal friends, her techniques affect animals through a combination of circular touches, lifts, and strokes, which induce a state of relaxation and increased body awareness. Further, a series of ground exercises are employed to assist the animal in becoming more focused, balanced, and confident.

This gentle method often produces significant changes, even with the most difficult behavior problems. TTouch is currently being used by animal owners, trainers, breeders, veterinarians, and shelter workers in over 30 countries worldwide.

TTouch can help your animal with issues concerning...

- Agility and Gait
 - Excessive Barking & Chewing
 - Leash Pulling
 - Jumping Up
 - Aggressive Behavior
 - Extreme Fear & Shyness
 - Hyper Excitability
 - Tension & Stress
 - Problems Associated with Aging
 - Recovery from Injury or Surgery*
 - Resistance to Grooming
 - Separation Anxiety
 - Litter Box Issues
 - Scratching & Fear Biting
 - Trauma with Traveling
- *TTouch supports veterinary care.

TELLINGTON TTOUCH®

emphasizes cooperation and partnership, while deepening the bond between you and your companion animal. It offers a positive approach to training, whereby old patterns can be changed by gentle and non-habitual movements and touches.

Eliminate inappropriate behaviors, assist with recovery from injury and illness, or just enhance the quality of your animal's life.
